

# Bareboat Skipper Referrals

On occasion our guests will ask for referrals to hire a local captain or qualified skipper to assist in operating the vessel they rented. Many of our guests consider this option, because they don't feel comfortable operating the vessel on their own, others because they'd like to enjoy the experience, have adult beverages and don't want to operate the vessel under the influence. No matter the reason, Crown & Anchor is happy to offer referrals to a few locally qualified skippers that can be hired.

The referral list and individual skippers provided below do not in any way represent, warrant, or guarantee competency of the referred skipper. While Crow & Anchor has conducted a thorough review of each skipper's competency, we do not endorse or require a bareboat charterer to hire from this list. We recommend interviewing several candidates, verifying experience and credentials, and obtain references before hiring. A bareboat charterer may hire any qualified skipper he/she wishes, however under the Bareboat Rental Agreement the chosen skipper must either:

1. hold a valid International Certificate of Competency (the "ICC")
2. hold a valid Sailing License & Credentials (the "SLC") or
3. successfully pass an on-the-water competency evaluation overseen by an assessor selected by Crow & Anchor.
4. For any operator born on or after January 1, 1988 North Carolina law requires successful completion of an approved boating safety course and obtain and carry North Carolina Boating Safety ID Card [Click Here](#) for additional information.
